

PACE Center for Girls UI Plan

UI Elements

Mobile Hamburger Menu

The mobile hamburger menu will be accessible on all pages at a size of 600px or smaller. The mobile hamburger menu will feature a smooth drop down menu for users on mobile devices to navigate the site easier. The mobile user will be able to click on the three lines for the hamburger menu, a drop down menu will appear with the navigation items there for them to click and navigate to whichever page they want. This hamburger menu will disappear on screen sizes of 600px or larger and a normal navigation bar will take its place.

Accordion

On the “About Us” page, there will be a section of boxes titled “Guiding Values and Principles” with six boxes the user will click on. Once clicked, the user will be able to read about the specified value/principle. This will result in the user being knowledgeable about the driving forces of PACE Center for Girls.

“Read More” button

The “Contact” page will feature a “Read More” button after each miny description of the founders of PACE. The user will be able to click on the button if they want to read/learn more about who runs PACE Center for Girls.

API Element

Google Maps

PACE Center for Girls has many locations across Florida. The “Contact” page will feature a Google Maps API for users to use if they want to find a center in their area.
